kushal.shankhapal.work@gmail.com | LinkedIn | GitHub | 8446325066 | Nashik, Maharashtra

SUMMARY

Full-Stack, AI, and Game Developer with experience in web apps, interactive simulations, and cybersecurity platforms. Proficient in React, Next.js, FastAPI, Python, TypeScript, and Godot Engine. Ex-Chairperson, MVPS's KBT ACM Student Chapter; national-level award winner for VisualizeIT (PROJIT-2026, Avishkar).

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript (ES6+), GDScript, HTML5, CSS3/SCSS, SQL
Frameworks: React.js, Next.js 16 (App Router), FastAPI, Node.js, Tailwind CSS, Framer Motion
Tools & DB: PostgreSQL, Supabase, Redis, Git/GitHub, Vercel, Godot Game Engine, Blender
Concepts: REST APIs, Microservices, OAuth 2.0, JWT, RBAC, SSR/SSG, Game Dev, 3D Modelling
Game Dev: State Machines, Singleton/Autoload, Physics Simulation, Linear Algebra (Matrices, Transforms), Sprite & Asset Pipeline, Collision Detection, Normal Mapping

EDUCATION

B.E. in Information Technology *MVPS's KBT College of Engineering, Nashik · CGPA: 8.95 · Expected June 2026*
HSC *TPCPM, Bhadgaon, Jalgaon · 82.83% · March 2022*
SSC *NEMS, Bhadgaon, Jalgaon · 89% · March 2020*

EXPERIENCE

Software Engineering Intern (AI & Full-Stack), QuasarCyberTech, Nashik *March 2026 – May 2026*
◦ Engineered enterprise cybersecurity platforms (asset intelligence, vulnerability management, risk analytics) using **React (Vite), TypeScript, Tailwind CSS** and **Python/FastAPI**; built and deployed the production website **quasarcybertech.com** featuring a custom Blog CMS, secure admin portal (captcha + scrypt + TOTP 2FA + JWT), and SEO-optimized SSG architecture.
◦ Designed secure backend systems with **PostgreSQL, Redis, and microservices**; implemented end-to-end encrypted contact/newsletter workflows (X25519 + XChaCha20-Poly1305), HMAC-based deduplication, RBAC, CDN-based asset delivery (Cloudinary), and CI/CD deployment for scalable, production-grade systems.

Game Developer Intern, Nomadicriti Computer Games, Nashik *June – July 2025*
◦ Developed a 2048-style RPG board game with RPG mechanics using the open-source Godot Engine.

Vehicle Simulation & Modding, Prachoday Ahire Automotive Designs, Nashik *Feb – March 2024*
◦ Integrated a custom 3D vehicle model into BeamNG.drive for realistic physics-based testing.

PROJECTS

VisualizeIT – Full-Stack Curriculum-Aligned Simulation Platform *visualize-it.tech, GitHub*
Next.js 16, React 19, TypeScript, NextAuth.js, Supabase (PostgreSQL), Tailwind CSS 4, Konva, Gemini Flash
1st Prize – PROJIT-2026 National · Branch & College Winner – Avishkar · SIH 2025 Pre-Qualifier Nominee
◦ Built a curriculum-aligned platform with **17 interactive simulations** across 5 SPPU subjects (DS, OS, DBMS, CG, TOC), featuring per-student progress tracking, quizzes, and an AI doubt-resolution assistant (Gemini Flash).
◦ Architected dual authentication (**Google OAuth + email/password**) via NextAuth.js with bcrypt hashing and Row-Level-Security-protected **Supabase (PostgreSQL)** backend; built native canvas simulations (Konva) and a 7-stage interactive Turing Machine module with framer-motion.

Campus Connect – 3D College Navigation *GitHub*
HTML, CSS, SCSS, JavaScript, Blender, Google model-viewer · 1st Prize – SPARKTECH 2023, MVPS's KBT COE
◦ Developed a web platform for navigating a 3D college model with classroom schedules, syllabus notes, PYQs, and a commenting system for peer collaboration.

Top-Down Tank Survival Game *GitHub*
Godot Engine, GDScript, Blender, Laigter
◦ Physics-based tank game with accurately animated movement, normal-mapped dynamic lighting, and immersive combat mechanics.

Godot Engine Docs Contributor *GitHub Pull Request #10173 – Merged*
◦ PR merged into official Godot docs improving clarity and consistency.

ACHIEVEMENTS & LEADERSHIP

Chairperson – MVPS's KBT ACM Student Chapter
◦ Represented chapter at **ACM Summit, Bangalore**; spearheaded GenAiThon 2K25 (230+ registrations) and co-organised **SIH 2024** (400+ participants), building an **automated certificate pipeline (Google Apps Script, Sheets/Drive/Slides/Gmail APIs)** for 100+ participants.
◦ Conducted two **Godot Game Dev Workshops** training 50+ students each; collaborated with ACM (Association for Computing Machinery), GDSC (Google Developer Student Clubs), and ITSA (Information Technology Student Association).

CERTIFICATIONS

NVIDIA – Fundamentals of Deep Learning (2024) · **Google** – Cloud Computing Foundations (2024) · Cloud Study Jam (2023) · **Rubiversity** – Data Science Foundation (2025) · **IIT Bombay Spoken Tutorial** – JavaScript, Python 3, PHP & MySQL, CSS, Java Business Application (2024–2025)
